

Alpine S2-A60M 600W Mono Amplifier

Brand: Alpine Car Audio
Product Code: S2-A60M
Availability: In Stock
UPC: 793276085160
MPN: S2-A60M
Location: Cleveland, Ohio

Price: ~~\$299.95~~ \$269.95

Short Description

Entry-level sound just got elevated with the S2-A60M Mono Amplifier. Its sleek redesign houses an Alpine Class D Amplifier Circuit with 600W of powerful bass performance.

Description

Entry-level sound just got elevated with the S2-A60M Mono Amplifier. Its sleek redesign houses an Alpine Class D Amplifier Circuit with 600W of powerful bass performance.

Features

- 600W Mono Amplifier
- Alpine's Class D Amplifier Circuit
- Two-Sided Terminal Layout
- Optional Remote Bass Knob Compatible (required RUX-KNOB.2 or RUX-H01, sold separately)
- Power Output: 330W RMS x 1 @ 4Ω, 600W RMS x 1 @ 2Ω, 600W RMS x 1 @ 1Ω
- Frequency Response: 10Hz – 400Hz

Unparalleled Power

Alpine's S-Series S2-A60M 600W Mono Amplifier is the perfect solution for unparalleled power and performance on a budget. With a power output of 600W at a 1ohm or 2ohm drive, this mono amp is capable of driving even the most demanding subwoofers, delivering clean and distortion-free bass for a wide range of applications. Plus, its compact design makes it easy to install in any vehicle.

Flexible Application

New to the Next-Generation S-Series amplifiers is a new selectable remote turn-on circuit, a three-position switch that ensures the amplifier turns on and off at the proper times. This design is crucial with newer, in-vehicle technology and allows for proper integration with any factory or aftermarket system.

Easy Control Access

The amplifier was intentionally designed with sound controls located on the side panels, instead of the top panel, making it easier to access gain and crossover controls when installed under vehicle seats or in shallow-depth locations.

Removable end caps were added to cover the side controls and connections, providing a clean, sleek finish to the amplifier.

Optimal Power Matching

With the capacity to deliver 600 watts of power at 1 ohm, the S2-A60M is fully equipped to provide ample power to either a single Alpine S-Series 10" or 12" Subwoofer, or two S-Series 8" Subwoofers, ensuring exceptional sound quality and optimal performance.

Specification

Amplifiers	
Amplifier Brand	Alpine
Channels	1, Mono
RMS/MAX Power Per Channel	600 Watts
Max Amplifier Power	600 Watts
Minimum Impedance Per Channel	1 Ohm
Speaker Level Inputs	Yes
Built in Crossover	Low Pass
Preamp Outputs	Yes
Bass Knob Control	Yes, Optional
