Alpine KTA-450 400W 4-Channel Amplifier

Brand: Alpine Car Audio
Product Code: KTA-450
Stock: 1
UPC: 793276242822
MPN: KTA-450
Location: Cleveland, Ohio

Price: $219.95

Short Description
The next generation of Power Pack is here! The compact KTA-450 Power Pack Amplifier utilizes Alpine’s exclusive DPP technology for a big power boost in a small space.

Description
The next generation of Power Pack is here! The compact KTA-450 Power Pack Amplifier utilizes Alpine’s exclusive DPP technology for a big power boost in a small space.

Features

- Class D amplifier circuit
- 400W DPP 4-Channel Amplifier
- Compact size, measuring just 7” W x 3.5” H x 1.25” D
- Built-in High Pass Crossovers
- Dynamic Peak Power (DPP) technology doubles the power during dynamic musical passages
- PowerStacking bracket included for mounting to the iLX-W670 7” Mech-less AV Receiver (sold separately)
- Power Output: 45W RMS x 4 @ 2/4?, 100W DPP x 4 @ 2/4?
- Frequency Response: 15Hz – 50kHz

EXCLUSIVE AMPLIFIER TECHNOLOGY, DYNAMIC PEAK POWER (DPP)

The KTA-450 features Alpine’s exclusive Dynamic Peak Power (DPP). DPP intelligently adjusts the gain to adapt to musical needs. DPP prevents the KTA-450 from clipping by supplying up to double the power for sudden, dynamic sounds. DPP ensures music sounds the way it should at high volumes and boosts the KTA-450 to 400 watts DPP, doubling its power without increasing its size.

COMPACT SIZE FOR HIDDEN INSTALLATION APPLICATIONS

The KTA-450 measures just 7” W x 3.5” H x 1.25” D. For vehicles that do not have the space for a traditional amplifier, the KTA-450’s small size allows it to be tucked away in hidden areas such as in the glove box or behind the radio. It could even be used in a motorcycle’s saddlebag or on a boat.

AWARD-WINNING POWERSTACK COMPATIBILITY

The KTA-450 can mount behind select Alpine 2-DIN mech-less head units, like the iLX-W670, using the included bracket. The KTA-450’s recessed harness receptacle allows

the wiring to fold between it and the head unit so both products fit in a standard 2-DIN space. This PowerStack design is a 2019 CES Innovation Awards winner and makes the duo one of the most powerful 2-DIN radios available.

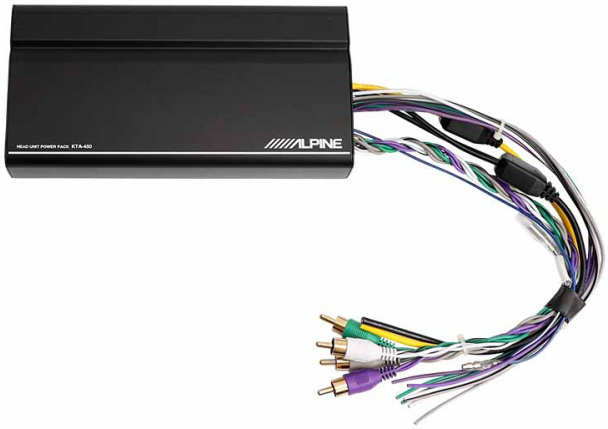

SIMPLE INSTALL USE WITH ANY RADIO

The KTA-450 uses a 22-pin power harness with a recessed design on one side, so the cables can be tucked-in for a cleaner, less-bulky installation.

Specification

Amplifiers	
Amplifier Brand	Alpine
Channels	4
RMS/MAX Power Per Channel	45W RMS x 4 @ 2/4?, 100W DPP x 4 @ 2/4?
Max Amplifier Power	400 Watts
Minimum Impedance Per Channel	2 Ohm
Speaker Level Inputs	Yes
Built in Crossover	High Pass
Preamp Outputs	No
Bass Knob Control	No
