- Twist-Lock Grille Mount System
- High-Amplitude Multi-Roll (H.A.M.R.) Surround
- High-Grade Strontium Ferrite Magnets
- 600W RMS / 1800W MAX

PERFORMANCE & VALUE

With an impressive power handling of 600W RMS and a peak power handling of 1800W, the Next-Gen 12” S-Series Subwoofers deliver outstanding performance value. Boasting a wide frequency response range of 23Hz to 215Hz and a sensitivity of 86dB (1W/1m), these subs ensure powerful and accurate bass reproduction across a diverse range of music genres.

ENHANCED PUNCH

Featuring the lightweight yet sturdy combination of carbon fiber and polypropylene, the Next-Gen S-Series Subwoofer cone delivers deep, low-distortion bass that enhances the depth and richness of your music.

HAMR Surround

The Next-Generation S-Series Subwoofers contain Alpine’s High Amplitude Multi-Roll (H.A.M.R.) Surround Technology. This rubber surround allows the subwoofer cone to efficiently move air while staying cool. This technology allows for 15mm of one-way excursion that creates incredible accuracy from the subwoofer.

Flexible Application

A Dual Voice Coil (DVC) with easy configuration jumpers make installing the S-Series subwoofers a breeze. A new twist-lock grille mounting system makes it easy to install and remove an optional grille without mounting screws for added protection to the cone.

Specification

Subwoofers	
Subwoofer Brand	Alpine
Subwoofer Size	12"
Power Handling RMS/MAX	600W / 1800W
Number of Voicecoils	Dual 4 ohm
Final Subwoofer Impedance	2 or 8 ohm
Subwoofer Cone Material	Carbon Fiber / Poly Propylene
Subwoofer Basket Material	Aluminum
Subwoofer Surround Material	Rubber
Subwoofer Mounting Depth	5"
