ALPINE HALO DESIGN

Drawing inspiration from the Alpine Halo displays, these subwoofer enclosures feature distinctive curved edges accented by a sleek silver trim and a front baffle, creating a seamlessly matching system aesthetic. Built with sturdy, 3/4” MDF construction and covered in a premium black carpet, these enclosures not only provide durability but give the impression of a custom look, without the custom work.

DOUBLE YOUR BASS WITH PROLINK™

Alpine’s innovative ProLink™ technology is tailor-made for bass enthusiasts. With ProLink™, experience unparalleled flexibility as you effortlessly add an additional Alpine Halo subwoofer into your setup. Utilize a dedicated linking bracket (sold separately) for seamless integration, doubling the impact of your bass for a truly immersive sound sensation.

Enhanced Bass Punch

The enclosures come preloaded with the Next-Gen S-Series Subwoofers featuring the lightweight yet sturdy combination of carbon fiber and polypropylene to deliver deep,

low-distortion bass that enhances the depth and richness of your music.

Optimized Performance

The ported enclosures feature an optimized vent and rounded internal port edges that maximize the output performance of the subwoofer, for deeper, more reliable bass. Each enclosure is also wired for optimized performance with Alpine’s S-Series Mono Amplifiers.
