**Price:** \$849.99

## Short Description

JBL Dual 12-Inch Stadium 1000-Watt Bass Package

## Description

### JBL Dual 12-Inch Stadium Ported Enclosure With Club 1000-Watt Amplifier Bass Package

JBL's Stage 1200D, a dual 12" sub enclosure, delivers powerful bass at an affordable price. The high-tech subs are designed to handle lots of power for deep, rich bass, yet play nimbly and efficiently to deliver impressive musical accuracy. The subs pair perfectly with the rugged slot-port enclosure, which increases the overall efficiency, and is built to last.

The JBL Club A1000 mono subwoofer amplifier delivers 1000-Watts RMS using a Class D amplifier design to ensure high output and minimum current draw. Speaker-level inputs allow this amplifier to integrate into almost any system, even one using your car's factory radio. You can use the low-pass filter and variable bass boost to maximize the performance of your subwoofer and enclosure, while a phase switch ensures that the bass will blend well with your full-range speakers.

## FEATURES
