- 4118X

Works with the following DesignTech systems:

- 24921
- 24921B

Works with the following Ready Remote systems:

- 4113R

Works with the following MESA systems:

- 4415M

THE VIPER 7116V WILL REPLACE THE VIPER 7111V REMOTE CONTROL

Please make sure you have a working control unit installed in the vehicle prior to ordering this remote control. Programming instructions are included in the package and will require accessing your valet/programming switch. Video instructions will be available on our YouTube page under remote controls.

Do you need the valet switch? Please add the valet switch to your order if you are not sure.

Programming Instructions
Note: Make sure the system is disarmed, and the LED is off a minimum of 60-seconds prior to beginning the remote pairing process.

Preparing the system that HAS remote start

1. Open drivers door
2. Turn the ignition ON.
3. Within 10-seconds, press and release the valet and programming button once, then press and hold it. The status LED begins flashing and the siren/horn (if connected) sounds to confirm the system is ready for pairing. DO NOT LET GO OF THE SWITCH
4. Press the "REMOTE START" button of the 7116V transmitter. The vehicles horn/siren will honk if connected. You have now successfully learned the remote to the vehicles remote start system.
5. Turn the ignition OFF and WAIT approximately 60 seconds.
