### Short Description

Viper 7111V 1-Way Remote 1-Button Remote Control Is **DISCONTINUED** And Replaced By The Viper 7116V or 7117V

### Description

## Brand New Viper 7116V Replacement for The Discontinued Viper 7111V 1-Button 1-Way Remote Control

The Viper 7116V 1-button remote control transmitter is the second-generation replacement for the discontinued Viper 7111V remote control originally supplied with many Viper 4115V and 4118V remote start systems. Whether you're replacing a lost or damaged remote or adding an extra transmitter for convenience, the 7116V provides reliable performance and compatibility with a wide range of Viper and Directed Electronics systems.

Purchase with confidence from Access 1 Alarm & Audio, Cleveland, Ohio's premier mobile electronics shop. Every Viper 7116V remote sold by Access 1 is a genuine Viper transmitter sourced directly from the original manufacturer. No knockoffs, no refurbished units and no reprogrammed returns—just authentic Viper quality.

- 4118X

## **Compatible DesignTech Systems**

- 24921
- 24921B

## Compatible Ready Remote Systems

- 4113R

## Compatible MESA Systems

- 4415M

## Programming Information

A working control module must already be installed in the vehicle before ordering this remote control. Programming instructions are included and require access to the vehicle's valet/programming switch. Video programming assistance is available through our YouTube channel.

If your vehicle is missing the valet/programming switch, we recommend adding a replacement valet switch to your order before attempting remote programming.

## Programming Instructions

**Note:** Make sure the system is disarmed, and the LED is off a minimum of 60-seconds prior to beginning the remote pairing process.

Preparing the system that HAS remote start

1. Open drivers door
2. Turn the ignition ON.
3. Within 10-seconds, press and release the valet and programming button once, then press and hold it. The status LED begins flashing and the siren/horn (if connected)

sounds to confirm the system is ready for pairing. **DO NOT LET GO OF THE SWITCH**

4. Press the "REMOTE START" button of the 7116V transmitter. The vehicles horn/siren will honk if connected. You have now successfully learned the remote to the vehicles remote start system.
5. Turn the ignition OFF and WAIT approximately 60 seconds.

## Specification

Remote Control	
Works With Antenna(s)	543X, 548T, 6102T, 6111T, 6112T, 6166T, 6167T, 6213T
Battery Type	CR2016 X2
FCC ID	EZSDEI7116
IC Number	1513A-7116
Frequency	434Mhz
Range	1/4-Mile
1-Way or 2-Way	1-Way
