## Description

Viper's 2-Way basic security and remote start system will start your car with the push of a button from up to 1/4-mile away – and confirm it has started on the large LCD screen of the 2-way remote. Security works the same way: when you arm or disarm your system, you will receive confirmation on the 2-way remote, and if your siren sounds the remote will beep or vibrate to let you know, from up to 1,500 feet away. System comes with one 2-way and one 4-button 1-way remote
