Clifford 7211X

Brand: Clifford
Product Code: 7211X
Stock: DISCONTINUED ORDER NEW MODEL
UPC: 093207062957
FCC ID: EZSDEI7211
MPN: 7211X
Location: Cleveland, OH

Price: $89.99

Short Description
Clifford 7211X 2-way remote is discontinued. Replace it with the genuine Viper 7211V for compatible Clifford, Python and Viper remote start systems.

Description

Clifford 7211X 2-Way LED 1-Button Remote Control

The **Clifford 7211X** is a genuine 2-way LED 1-button remote control originally supplied for compatible Clifford Responder One remote start systems. It was also compatible with select Python and Viper systems using the same 7211-series remote platform.

The original Clifford 7211X has been discontinued by the manufacturer. Access 1 Alarm & Audio maintains this page to provide compatibility information, programming instructions and replacement information for customers who still use these systems.

Discontinued Product Notice

The original **Clifford 7211X** remote control has been discontinued and is no longer in regular production.

The current genuine replacement is the **Viper 7211V 2-Way LED 1-Button Remote**

Control. The Viper 7211V uses the same compatible remote platform and works with supported Clifford, Python and Viper Responder One systems.

Original model: Clifford 7211X
Replacement model: Viper 7211V
Replacement price: $89.99

Clifford 7211X Remote Control Information

The Clifford 7211X is a **2-way LED 1-button remote control** designed for convenient remote-start operation. Compatible systems can provide audible and visual confirmation when commands are successfully received.

The 7211X was part of Directed's Responder One remote-control family and shares compatibility with several Clifford, Python and Viper remote-start systems.

Genuine Replacement Remote

The **Viper 7211V** is the current genuine replacement for the discontinued Clifford 7211X. It is manufactured for the same compatible Directed remote-start platform and provides the same basic 2-way LED 1-button operation.

Changing from a Clifford-branded 7211X to the Viper 7211V does not require replacing the entire remote-start system when the installed system is compatible.

Replacement Includes

- One genuine Viper 7211V 2-way LED remote control
- New remote from the original manufacturer
- Compatible replacement for supported Clifford 7211X applications
- Programming capability with compatible existing systems

Compatible Clifford Systems

- 4203X
- 4205X
- 4218X
- 9211X

- Responder One

Compatible Python Systems

- 4203P
- 4205P
- 4218P
- 9211P
- Responder One

Compatible Viper Systems

- 4203V
- 4205V
- 4211V
- 4218V
- 9211V
- Responder One

> **Compatibility Note:** Remote compatibility is determined by the remote start or security system installed in the vehicle, not simply by the vehicle's year, make or model. If you are unsure which remote your system requires, contact Access 1 Alarm & Audio before ordering.

Order the Viper 7211V Replacement

Clifford 7211X Programming Instructions

1. Make sure the remote start system is disarmed and the status LED has been off for at least 60 seconds.
2. Open the driver's door.
3. Turn the vehicle ignition to the **ON** position.
4. Within 10 seconds, press and release the system's valet/programming button once, then press and hold the button. The status LED will flash and the horn or siren may provide confirmation that the system has entered remote-pairing mode. Continue holding the programming button.
5. While continuing to hold the programming button, press the **START** button on the 7211-series remote. The horn or siren should provide confirmation that the remote has been learned.
6. Release the programming button, turn the ignition **OFF** and allow approximately 60 seconds for the system to exit programming mode.
7. Test the remote. A compatible 2-way remote should provide audible and visual

confirmation when the command is received.

> **Important:** Programming procedures can vary depending on the specific Clifford, Python or Viper system installed in the vehicle. If these instructions do not work with your system, verify the system model before attempting additional programming.

Replaced by the Viper 7211V

The discontinued Clifford 7211X has been superseded by the **Viper 7211V 2-Way LED 1-Button Remote Control**. The 7211V is the preferred current replacement for compatible systems originally using the 7211X.
