Short Description

2015-2018 Audi S3 remote start for \$499.99 professionally installed in Cleveland. Start with your factory Audi key using 3X Lock. No OEM key sacrificed.

Description

2015–2018 Audi S3 Factory Key Remote Start

Add the convenience of remote start to your **2015–2018 Audi S3 equipped with a standard key and automatic transmission**. This professionally installed remote start package allows you to start your S3 using the **original Audi factory key** you already carry.

Simply press the **LOCK button three times** on your factory Audi remote to activate remote start. No additional remote control is required for everyday operation.

\$499.99 Professionally Installed

Complete vehicle-specific remote start solution for compatible 2015–2018 Audi S3 standard-key models.

Remote Start With Your Factory Audi Key

There is no need to add another remote to your keychain. The remote start system integrates with your Audi's factory electronics so you can activate remote start directly from the original Audi key.

Press LOCK three times — your Audi S3 starts.

No OEM Audi Key Sacrificed

Unlike remote start installations that require permanently placing a factory key or transponder inside the vehicle, our vehicle-specific integration for this application is designed so that **no OEM Audi key is sacrificed**.

You keep **all of your factory Audi keys** while gaining the convenience of remote start.

Advanced Vehicle Integration

The system uses a vehicle-specific integration platform with the required Audi/VW immobilizer interface to communicate with the S3's factory electronics and immobilizer system. This provides a properly integrated remote start solution specifically designed for the vehicle rather than a generic universal installation.

The integration platform provides CAN-bus vehicle communication, immobilizer integration, remote start control and factory remote integration while retaining normal operation of the Audi's original systems.

Remote Start Features

- **Factory Audi key control** — no extra remote required
- **3X LOCK remote start** activation
- Engine remote start and stop
- Vehicle-specific CAN-bus integration
- Factory immobilizer integration
- Factory door lock and unlock integration
- **No OEM Audi key sacrificed**
- Keep all of your factory Audi keys
- Designed for compatible automatic-transmission Audi S3 models
- Professionally installed and programmed
- Limited Lifetime Warranty

Want Smartphone Remote Start?

Want even more control? A smartphone remote start package is also available for the 2015–2018 Audi S3. Smartphone control lets you remotely start your Audi from your compatible phone without being limited to the normal operating range of the factory key.

With cellular smartphone control, you can enjoy **virtually unlimited remote-start range** anywhere compatible cellular/data service is available.

2015–2018 Audi S3 Factory Key + Smartphone Remote Start: \$699.99 professionally installed.

Professional Audi S3 Remote Start Installation in Cleveland

Modern Audi vehicles use sophisticated factory electronics, CAN networks and immobilizer systems. Proper remote start installation requires more than simply connecting a universal remote starter.

Access 1 Alarm & Audio professionally installs and programs the complete system for your Audi S3. We have served Cleveland and Northeast Ohio for over 20 years, specializing in remote start, vehicle security, car audio and advanced automotive electronics.
