

ESCORT Redline 360c Radar & Laser Detector

Brand: Escort Radar

Product Code: REDLINE-360C

Stock: 1

UPC: 737795004011

MPN: REDLINE-360C 0100040-1

Location: Cleveland, OH

Price: \$799.99

Short Description

The **ESCORT Redline 360c** is ESCORT's flagship portable radar and laser detector, combining extreme detection range with a triple-antenna design, 360° directional awareness and true stealth technology. Blackfin DSP, GPS AutoLearn, advanced false-alert filtering, Wi-Fi connectivity and Drive Smarter integration deliver uncompromising performance for drivers who demand ESCORT's highest level of portable radar detection.

Description

ESCORT Redline 360c Radar & Laser Detector

The **ESCORT Redline 360c** is ESCORT's flagship portable radar and laser detector, engineered for drivers who demand maximum detection performance, directional awareness and discretion.

A sophisticated **triple-antenna platform, three Low-Noise Amplifiers, Blackfin DSP processing and software-defined radio technology** work together to deliver extreme range and sensitivity, while ESCORT's patented TotalShield technology provides true stealth operation.

Extreme Detection Performance

The Redline 360c uses **dual front antennas and a dedicated rear antenna** with three Low-Noise Amplifiers to provide exceptional radar sensitivity and 360-degree coverage.

Its **Blackfin digital signal processor** and software-defined radio architecture rapidly analyze incoming signals, giving the Redline 360c the processing capability required for high-performance radar detection in today's increasingly complex driving environment.

360° Directional Awareness

Directional arrows help identify whether a detected radar threat is **ahead, beside or behind your vehicle**. Instead of simply knowing that radar is present, the Redline 360c gives you additional information about where the signal is coming from.

True Stealth with TotalShield Technology

One of the defining features of the Redline series is **ESCORT's patented TotalShield technology**. The Redline 360c is engineered to remain undetectable by radar-detector detectors, providing true stealth operation without sacrificing radar detection performance.

GPS AutoLearn & Intelligent False-Alert Filtering

Extreme range is only useful when a detector can intelligently separate meaningful alerts from everyday interference. **ESCORT's GPS-based AutoLearn technology** learns frequently encountered stationary false-alert locations and automatically silences them on future drives.

Variable Speed Sensitivity further adjusts detector sensitivity according to vehicle speed, helping provide a quieter experience around town while maintaining the performance expected during highway driving.

Connected Protection with Drive Smarter

Built-in connectivity allows the Redline 360c to work with **ESCORT's Drive Smarter** ecosystem for shared driving alerts, device management and supported software updates.

The Redline 360c also supports **ESCORT's Defender Database** for available red-light and speed-

camera location alerts. Database access and certain connected features may require activation, connectivity or a subscription.

Radar & Laser Detection

The Redline 360c monitors the major radar bands used for traffic enforcement, including **X, K and Ka-band radar**, along with laser detection using multiple laser sensor diodes.

Laser detection provides notification when laser energy is detected. For customers looking for a more comprehensive solution, **Access 1 Alarm & Audio** also offers professionally installed radar detection and dedicated laser defense systems for compatible vehicles.

Redline 360c Performance

- Triple-antenna radar platform
- Dual front and single rear antennas
- Three Low-Noise Amplifiers
- Blackfin DSP signal processing
- Software-defined radio receiver
- 360° directional threat arrows
- Patented TotalShield stealth technology
- X, K and Ka-band radar detection
- Laser detection

Intelligence & Connectivity

- GPS-based AutoLearn technology
- Variable Speed Sensitivity
- Drive Smarter integration
- Wi-Fi connectivity
- Bluetooth Smart (BLE)

- Defender Database compatibility
- Graphic multi-color OLED display
- Five brightness levels plus Full Dark Mode
- Highway, Auto, Auto No X and Auto Lo K modes

What's Included

- ESCORT Redline 360c radar detector
- Premium EZ Mag Mount windshield mount
- SmartCord USB with Mute
- Premium travel case
- Quick-start documentation

Professional Hardwire Installation Available

Don't want a power cord hanging from your windshield? **Access 1 Alarm & Audio** can professionally hardwire your ESCORT Redline 360c for a cleaner installation with concealed wiring and convenient detector placement. Access 1 has served **Cleveland and Northeast Ohio for over 20 years**, specializing in radar detection, laser defense, remote start, vehicle security, dash cameras and advanced automotive electronics.

Radar detector and laser countermeasure laws vary by jurisdiction. Vehicle owners are responsible for understanding and complying with applicable laws where the vehicle is operated. Product features, connected services and compatibility may change through firmware, software or service updates.
