Short Description
Avital 2-Way LCD + 1-Way Remote Combo

Genuine Avital 7345L 2-Way LCD Remote + Original 7143L 1-Way 4-Button Companion Remote for compatible **Avital 3305L and 5305L systems**. Works with **548T and 6213T antennas**. FCC IDs: EZSDEI489 (7345L) and EZSDEI474S (7143L). **Two brand-new remotes; one AAA battery included for the 7345L. $169.99 for the combo.** Both remotes require programming.

Description

Avital 7345L + 7143L Remote Control Combo

Replace a lost, damaged or worn-out transmitter with a **brand-new, genuine Avital 7345L 4-button 2-way LCD remote control**. Designed for compatible **Avital 3305L security and 5305L security/remote-start systems**, this original Directed Electronics remote provides feedback through its LCD display.

Enjoy an advertised operating range of **up to one-quarter mile under ideal conditions**. Actual range varies with surroundings, interference and installation.

This listing includes **one genuine Avital 7345L 2-way LCD remote with one AAA battery, plus one genuine Avital 7143L 1-way 4-button companion remote**. Both remotes require programming.

$169.99 **GENUINE AVITAL 7345L + 7143L COMBO**
Two Brand-New Remotes — 7345L LCD + 7143L Companion

GENUINE AVITAL Original manufacturer transmitter

2-WAY LCD Visual and audible system feedback

UP TO 1/4 MILE Advertised ideal-condition range

BRAND NEW One AAA battery included

Two Genuine Avital Remotes for Your Compatible System

The actual remotes supplied are the **Avital 7345L and original Avital 7143L**. Use the LCD remote for two-way feedback and the companion remote as an additional transmitter for the same compatible installation.

What you receive: One 7345L 2-way LCD remote with one AAA battery, plus one 7143L 1-way 4-button companion remote. Antenna and system control module are not included.

Responder LCD Feedback

The four-button 7345L sends commands to the installed system and receives supported status information. Available security, auxiliary and remote-start functions depend on the control module and vehicle configuration. Remote-start capability requires an installed remote-start system.

7345L LCD Primary + 7143L Companion Remote

The **7345L** is a 4-button 2-way LCD remote with supported visual and audible feedback. The **7143L** is a 4-button 1-way companion transmitter that sends commands without two-way LCD confirmation. Both operate supported functions on the compatible installed system.

The **3305L** provides security functions. The **5305L** supports security and remote-start functions when properly installed and configured.

Avital 7345L + 7143L System Compatibility

AVITAL SECURITY
• 3305L
AVITAL SECURITY & REMOTE START
• 5305L
COMPATIBLE ANTENNAS
• 548T • 6213T

Verify Installed Equipment: Compatibility is determined by the control module and receiver or antenna in the vehicle. Vehicle year, make and model alone do not identify the correct aftermarket remote.

Programming Required for Both Remotes: Refer to this product's **Programming Instructions** tab for pairing information.

Owner's Manual: Look for the manual attachment, usually to the right of the product image.

Video Instructions: Visit the Access 1 Alarm & Audio YouTube channel for available operation and programming videos.

Programming Instructions

Avital 7345L Programming Instructions

Responder 2-Way LCD Replacement Remote Control

For Compatible Avital 3305L and 5305L Systems

Follow this learn routine to program your replacement **Avital 7345L remote control** to a compatible, functioning system already installed in the vehicle.

Locate the Valet/Programming Button: Some installations have the button built into the windshield-mounted antenna or Control Center. Older installations use a **separate Valet/Programming pushbutton, usually hidden under the dash**. Locate the button connected to your installed system before beginning.

5305L — Alarm + Remote Start

Press and release ONCE.
Then press a second time and **continue holding**.

3305L — Alarm Only

Press and release SEVEN TIMES.

Then press an eighth time and **continue holding**.

The final press-and-hold is additional to the press-and-release count above.

Door. Open a vehicle door.

Key. Turn the ignition key to the **ON** position. Do not start the engine.

Choose and Hold. Within **5 seconds**, press and release the Valet/Programming button **once for the 5305L** or **seven times for the 3305L**. Then press the button **once more and continue holding it**. The LED flashes the same number of times as the selected channel, and the siren chirps to confirm. **Do not release the Valet/Programming button.**

Transmit — Press LOCK. While continuing to hold the Valet/Programming button, press the **LOCK button (closed-padlock symbol)** on the 7345L remote. The unit chirps to confirm that the remote has been paired to the receiver.

Release. After pairing is confirmed, release the Valet/Programming button, turn the ignition **OFF** and remove the key.

Test Your Remote: Allow the system to exit programming mode, then test the supported remote functions. Refer to your system owner's guide for remote-control operation.

Owner's Manual: Look for the manual attachment, usually located to the right of the product image.

Video Instructions: Visit the Access 1 Alarm & Audio YouTube channel for available operation and programming videos.

If the system does not respond as described, verify the installed system model and programming-button location before trying again. Contact Access 1 Alarm & Audio if you need assistance.
