

ESCORT MAX 360c MKII Wi-Fi Radar & Laser Detector

Brand: Escort Radar

Product Code: MAX360C-MKII

Stock: 1

UPC: 737795203711

MPN: MAX360C-MKII 0100037-3

Price: ~~\$599.99~~ \$519.99

Short Description

The **ESCORT MAX 360c MKII** delivers exceptional radar detection range, true 360° directional awareness, advanced false-alert filtering, GPS AutoLearn and dual-band Wi-Fi connectivity. Its upgraded M13 dual-antenna platform and Blackfin DSP provide faster detection and significantly improved performance for a quieter, more confident drive.

Description

ESCORT MAX 360c MKII Wi-Fi Radar & Laser Detector

The **ESCORT MAX 360c MKII** combines exceptional radar detection range, directional threat awareness and advanced connected technology in a premium windshield-mounted radar and laser detector.

Built on ESCORT's upgraded **M13 dual-antenna platform** with powerful **Blackfin DSP** processing, the MAX 360c MKII delivers improved sensitivity, faster signal processing and intelligent false-alert filtering for a quieter, more confident driving experience.

Exceptional Radar Detection Range

The upgraded M13 platform uses front and rear antennas to provide outstanding radar detection and **true 360-degree directional awareness**. Compared with the original MAX 360c platform, the MKII provides approximately **50% improved detection range and sensitivity**.

Multi-directional arrows help identify whether a detected radar source is **ahead, beside or behind your vehicle**, giving you more useful information than a conventional radar alert alone.

Advanced False Alert Filtering

Modern vehicles generate radar interference from blind-spot monitoring, collision-avoidance systems and other driver-assistance electronics. The MAX 360c MKII uses advanced filtering and digital signal processing to reduce unnecessary alerts while maintaining strong detection performance.

ESCORT's **GPS-based AutoLearn technology** learns frequently encountered stationary false-alert locations and can automatically silence them on future drives, helping the detector become quieter the more you use it.

Dual-Band Wi-Fi & Drive Smarter Connectivity

Built-in **dual-band Wi-Fi** provides convenient connectivity for supported software, firmware and database updates without routinely removing the detector from the vehicle.

The MAX 360c MKII also works with ESCORT's **Drive Smarter** platform, providing access to connected driving information including shared alerts and red-light and speed-camera information.

Smart Speed-Based Sensitivity

Variable Speed Sensitivity automatically adjusts radar sensitivity based on vehicle speed. This helps reduce unnecessary alerts during slower city driving while maintaining the sensitivity needed for highway driving.

Radar & Laser Detection

The MAX 360c MKII monitors the major radar bands used for traffic enforcement, including **X, K and Ka-band radar**, along with laser detection.

Laser detection provides an alert when laser energy is detected. For customers seeking a more comprehensive solution, Access 1 Alarm & Audio also offers professionally installed **radar detection and laser defense systems** for compatible vehicles.

MAX 360c MKII Highlights

- M13 dual-antenna platform
- Approximately 50% improved range and sensitivity
- Blackfin DSP signal processing
- 360° directional threat arrows
- Advanced false-alert filtering
- GPS-based AutoLearn
- Variable Speed Sensitivity
- X, K and Ka-band radar detection
- Laser detection

Connected & Convenience Features

- Dual-band Wi-Fi connectivity
- ESCORT Drive Smarter compatibility
- Connected driving alerts
- Red-light and speed-camera information
- Graphic multi-color OLED display
- Highway and automatic sensitivity modes
- EZ Mag Mount windshield mount
- Compatible with select ESCORT accessories

What's Included

- ESCORT MAX 360c MKII radar detector
- EZ Mag Mount windshield mount
- SmartCord USB with Mute
- Travel case
- Quick-start documentation

Professional Hardwire Installation Available

Don't want a power cord hanging from your windshield? **Access 1 Alarm & Audio** can professionally hardwire your ESCORT MAX 360c MKII for a cleaner installation with concealed wiring and convenient detector placement. Access 1 has served **Cleveland and Northeast Ohio for over 20 years** and specializes in radar detection, laser defense, remote start, vehicle security, dash cameras and advanced automotive electronics.

Radar detector and laser countermeasure laws vary by jurisdiction. Vehicle owners are responsible for understanding and complying with applicable laws where the vehicle is operated. Product features, connected services and compatibility may change through firmware, software or service updates.
