2007-2018 Mercedes-Benz Sprinter Basic Factory Key Fob Remote Start

Brand: Viper
Product Code: SKS-SPRINTER-906
Stock: 5
UPC: SKSNG906
MPN: SKS-SPRINTER-906
Location: Cleveland, OH

Price: $899.99

Short Description

2007–2018 Mercedes-Benz Sprinter remote start and full security — $899.99 professionally installed in Cleveland. No spare key or ignition-switch modification required. Includes external siren, LED and DAS II security sensor. Very limited factory-fob range: an external control device is recommended. Built-in high-idle option for 6-cylinder engines; 4-cylinder applications need extra parts. Ideal options for RV owners and work vans.

Description

MERCEDES-BENZ SPRINTER • 2007–2018

Factory-key convenience. Professionally installed in Cleveland, Ohio.

Remote start your 2007–2018 Mercedes-Benz Sprinter with the factory key you already carry. Give the cabin time to warm up during a Cleveland winter or begin cooling before a summer drive, with temperature-based control of compatible factory comfort features.

No Spare Key or Ignition Modification Required

Keep all of your factory keys. No spare key needs to be sacrificed, and no ignition-switch modification is required.

FACTORY KEY CONTROL lock-unlock-lock activation.
AUTOMATIC COMFORT Temperature-based heated seat and defroster activation.
INSTALLATION INCLUDED $899.99 at our Cleveland shop.

High Idle for RV Owners & Work Vans

A high-idle module option is built in for all 6-cylinder engines. 4-cylinder applications require extra parts. Confirm engine type, configuration and required accessories before booking.

- Automatically activate high idle after remote start.
- Turn automatic high idle on or off with an optional switch, and turn high idle off on demand.
- A start/stop trigger supports automatic starting and stopping from a compatible external source, such as a house-battery monitor with a relay.
- Support house-battery charging with automatic start and high idle for faster charging, where the vehicle charging system and battery installation support it.

Battery-monitor integration, optional switch, relay, 4-cylinder parts and any charging-system upgrades must be confirmed separately. Charging performance depends on the alternator, battery system and electrical loads. Automatic engine operation requires appropriate installation safeguards and use outdoors with adequate ventilation.

Designed Around Your Sprinter

- **Full security included:** External siren, LED indicator and DAS II digital security

sensor for shock, tilt, glass-break and tow protection.

- **Factory-key operation:** Works with the lock-unlock-lock sequence. The Sprinter factory fob has very limited range; an external control device is recommended for remote starting.
- **Extended-range options:** Compatible RF remotes and required interfaces can be added. AM remotes are not compatible.
- **Smartphone integration:** Directed / Viper SmartStart supports available start/stop, lock/unlock, optional immobilization, vehicle status, GPS location and alarm notifications according to compatible installed hardware and service plan.
- **Anti-theft / anti-carjacking capability:** Included capability requires compatible SmartStart hardware and active service to operate. We confirm vehicle compatibility and demonstrate its configured operation and limitations at installation.
- **Automatic comfort:** Supports heated-seat and rear-defroster activation based on outside temperature when compatible factory equipment is fitted.
- **Stalk programming:** Adjust supported settings such as run time, number of starts, light flashes and immobilizer settings.
- **Vehicle-specific integration:** Required harnesses, programming, testing and professional installation. Factory warranty coverage follows the vehicle manufacturer’s terms.

Available functions depend on vehicle equipment and system configuration. Additional remotes and accessories are separate unless specifically listed as included.

$899.99 Installed

Includes the SKS-SPRINTER-906 system, required harnesses, programming and professional installation. Operates with your existing factory key fob; additional handheld remotes are not included. **No spare key is sacrificed.**

Available Smartphone Upgrade

Directed / Viper SmartStart +$200

Add cellular smartphone control for virtually unlimited range. Start your vehicle from virtually anywhere in the world with an active service plan, phone internet access and compatible cellular coverage at the vehicle. Available smartphone features include start/stop, lock/unlock, vehicle status, GPS location and alarm notifications, depending on

vehicle equipment, interface and plan. Optional anti-theft/anti-carjacking immobilization requires compatible hardware and active SmartStart service; ask us to confirm operation and limitations for your vehicle. Cellular service is separate from the installed package. Ask to add SmartStart when booking.

Installation & Warranty

Professionally installed, programmed and tested at **Access 1 Alarm & Audio, 10418 Lorain Ave, Cleveland, OH 44111**. Includes a **5-year system warranty** and installation labor coverage **for as long as you own the vehicle**. Existing factory keys, optional cellular hardware and cellular services have separate coverage and terms.

Frequently Asked Questions

Is a spare key or ignition-switch modification required?

No. This Sprinter package does not require sacrificing a spare factory key or modifying the ignition switch.

What security equipment is included?

The package includes full security with an external siren, LED indicator and DAS II digital sensor supporting shock, tilt, glass-break and tow protection.

How do I activate remote start?

Use lock-unlock-lock on the factory key. Factory-fob range is very limited on this vehicle, so an external control device is recommended. Compatible RF remotes can be added; AM remotes are not compatible.

Is SmartStart included?

Viper SmartStart is an optional $200 upgrade. It requires compatible installed hardware, an active service plan, phone internet access and vehicle cellular coverage.

Does the high-idle option support my engine?

The high-idle module option is built in for all 6-cylinder engines. 4-cylinder applications require extra parts. We confirm engine type and the required configuration before installation.

Can this help charge RV house batteries?

Yes, with compatible charging equipment and professionally configured integration. A battery monitor with a relay can use the start/stop trigger for automatic engine operation. High idle can activate after remote start for faster charging and can be disabled on demand or controlled with an optional switch. Required accessories are confirmed separately; charging performance depends on the vehicle and battery system.

What comfort and programming features are supported?

Compatible factory heated seats and rear defroster can activate based on outside temperature. Supported stalk adjustments include run time, number of starts, light flashes and immobilizer settings.

How is the anti-carjacking capability operated?

Compatible Directed / Viper SmartStart hardware, active service and cellular coverage are required. We demonstrate the configured operation and limitations at installation.

Does $899.99 include installation?

Yes. The remote start system, included security equipment, required harnesses, programming and professional installation are included. Optional SmartStart, RF remotes and accessories are separate.

What warranty is included?

The installed system has a 5-year warranty, and installation labor is covered for as long as the original purchaser owns the vehicle. VSM550 Pro has a 1-year warranty when supplied. Cellular service and separately purchased accessories have their own terms.

Call to confirm your **2007–2018 Mercedes-Benz Sprinter** compatibility, then schedule installation at **10418 Lorain Ave, Cleveland, OH 44111.**
