

PSS-24WRA

300-Watt Complete Sound System Upgrade Package for the 2018 - Up Jeep® Wrangler and 2020 - Up Jeep® Gladiator

PRODUCT OVERVIEW

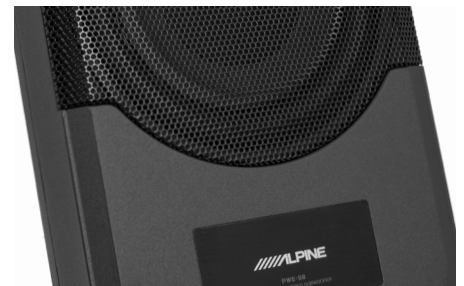

The PSS-24WRA is a 300-Watt Complete Sound System Upgrade Package for the four-door, non-amplified 2018 – Up Jeep® Wrangler and non-amplified 2020 – Up Jeep® Gladiator.

PRODUCT FEATURES

Complete Package – The PSS-24WRA has 5-channels of powered sound that replaces your factory system. The package includes two sets of 6.5" weather-resistant mid-bass drivers and 1" weather-resist tweeters that replace the front and rear soundbar factory speakers, an 8" powered, compact subwoofer and a 4-channel power pack amplifier.

Tuned for Jeep® – The PSS-24WRA sound system is tuned for the unique cabin environment of the Jeep® Wrangler and Jeep® Gladiator. The weather-resistant speakers are designed for powerful, top-off performance that's unhindered by weather, wind, or other noise while driving. The 6.5" mid-bass drivers bring out the full potential of your sound, while the tweeters capture the high frequencies often lost in music reproduction. The 8" compact subwoofer adds deep, accurate bass that grounds your sound system.

Plug & Play – The PSS-24WRA includes Jeep®-specific connectors and pods for an easy plug-and-play installation.

PSS-24WRA

300-Watt Complete Sound System Upgrade Package for the 2018 - Up Jeep® Wrangler and 2020 - Up Jeep® Gladiator

PRODUCT DETAILS

SPV-65X-WRA Speakers:

- Power Handling: 75 Watts RMS (225 Watts peak)
