Short Description

A GREAT "All-In-One" Custom Installed System! This custom installed radar detector offers front and rear radar detection and front and rear laser jamming. Comes with a 1-year speeding ticket guarantee and a 3-year warranty

Description

The ESCORT MAX Ci 360 offers the most advanced digital radar and laser detection system for the complete driver alert. Designed to be seamlessly integrated into the vehicle for a completely discreet install, it features front and rear radar receivers as well as four laser shifters which protect drivers against all speed monitoring devices. Along with complete 360° protection; the ESCORT MAX Ci 360 is 100% undetectable.

The ESCORT Max Ci 360 is packed with features and includes extreme radar

detection range and includes our patented In-Vehicle Technology ™ (IVT) filter to eliminate false alarms from other vehicles' collision systems.

This best-in class system includes a bright multicolor OLED display with directional arrow alerts, controller, GPS antenna, interface, front radar detector receiver , rear radar detector receiver, shifter bridge box, four ShifterMAX laser shifters and Bluetooth® enabled connectivity. The ESCORT connected experience offers real-time intelligence and alerts via the crowdsourced ESCORT Live™ app, a community filled with millions of users and DEFENDER® database filled with a database of red light & speed camera locations.

Pricing starts at $3499.99

Professionally installation is required
